PROFESSIONAL SUMMARY

Software Engineering graduate with honors and six months of Amazon operations experience, combining software development, AI/data projects, UI/UX thinking, business analysis, and process improvement. Experienced in building practical tools that turn unclear workflows into reliable systems, including dashboards, automation scripts, bilingual interfaces, and AI-assisted platforms. Strong interest in reducing manual work, improving decisions, and creating products people can actually use.

SKILLS

Programming: Python, Java, JavaScript, SQL, C, Swift

AI & Data: Natural Language Processing, Arabic NLP, Claude API, Multi-Agent Orchestration, Regression Analysis, Data Visualization

Web & Backend: HTML, CSS, React, Flask, FastAPI, REST APIs, Streamlit

Databases & Tools: MySQL, MongoDB, Git, GitHub, Jira, Google Colab, Selenium, Playwright

Business & Process: Business Analysis, Root-Cause Analysis, Six Sigma, 5S, Process Improvement, Agile/Scrum

Design & UX: UI/UX, Arabic RTL Interface Design, Wireframing, Prototyping

Professional Strengths: Team Leadership, Communication, Problem Solving, Adaptability, Ownership

PROFESSIONAL EXPERIENCE

Operations Area Manager Intern - Amazon - Jeddah Sort Centers (JED4, JED7) | Jun 2025 - Dec 2025

- Managed daily shift planning, labor allocation, and floor operations to keep service, quality, and productivity targets on track.
- Built a Sort Center Tools Hub (HTML/CSS/JavaScript) to centralize operations and performance dashboards for shift teams.
- Automated manual UPH calculation using a Tampermonkey script that pulled and computed FCLM data for instant readouts.
- Reduced failed moves from 60+ to 11 cases by identifying root causes, coaching associates on the correct process, and adding floor visual markers to reduce scanning errors.
- Supported launch readiness for JED4 and JED7 through system configuration, operational testing, reporting, and go-live preparation.

TECHNICAL PROJECTS

SANAD - Smart Multilingual Reporting System (Senior Capstone) - Python, Flask, MongoDB, NLP, Figma | [GitHub](#)

- Co-led a 5-member Agile/Scrum team building a bilingual Hajj/Umrah reporting platform with voice/text incident reports classified into medical, security, and lost-and-found categories.
- Designed RTL Arabic volunteer app screens including a live report map and severity-coded report cards; built Flask APIs with MongoDB storage.

InsightDesk - FastAPI, React, PostgreSQL, Claude API | [GitHub](#)

- Built an AI-assisted support-ticket platform that categorizes incoming tickets and surfaces root-cause patterns to reduce manual triage.

BasitMed - FastAPI, Python, Arabic NLP | [GitHub](#)

- Built an Arabic medical-text simplification pipeline focused on clarity, fault tolerance, and making complex health content easier to understand.

ProcessLens - Streamlit, Python, Data Visualization | [GitHub](#)

- Created an operational analytics dashboard that turns raw process data into actionable cycle-time and bottleneck insights for non-technical users.

MarketPulse - Streamlit, Python, Dashboard Design, Bilingual UI | [GitHub](#)

- Built a bilingual sentiment and review-analysis dashboard with Arabic/English UI support and RTL/LTR-aware interface design.

Startup Co-Founder Workforce - Python, Multi-Agent Orchestration | [GitHub](#)

- Designed a 4-agent DAG pipeline for startup idea validation, market research, business model design, and pitch writing.

RESEARCH

Co-Author, research manuscript: “Users’ Awareness and Perceptions of Smartphone Privacy and Security Settings: A Replication Study in Saudi Arabia” | [View Paper](#)

- Co-designed a 119-respondent survey; applied regression and thematic coding to identify gaps between awareness, behavior, and localized privacy/security interface needs.

EDUCATION

Bachelor of Science, Software Engineering | University of Jeddah - College of Computer Science & Engineering | Jan 2022 - Jun 2026

GPA: 4.7/5.0 - Excellent, Second Honors | [View Certificate](#)

HACKATHONS & LEADERSHIP

- Amazon Transcend - 1st Place Winner (Team NovaCore), Amazon, 2024/2025; Project Manager & Problem Solver | [View Certificate](#)
- Data Science Hackathon for Future Foresight - University of Jeddah & SAS Big Data Academy, Nov 2024; forecasting and future-insight methods | [View Certificate](#)
- Jeddah Cultural & Entertainment Tourism Hackathon - JCEC, Nov 2024; UI/UX Designer, 18 training hours | [View Certificate](#)
- EDU Thon - Education Hackathon (3rd Edition) - Princess Nourah University / Tameez Platform, Nov 2024; Leader & UI/UX Designer | [View Certificate](#)

COURSES & CERTIFICATIONS

- HCIA-AI V3.5 Course - Huawei ICT Academy | Jul 2025 | [View Certificate](#)
- HCIA-Cloud Computing V5.5 Course - Huawei Talent Online | Jun 2025 | [View Certificate](#)
- HCIA-Datacom V1.0 Course - Huawei ICT Academy | Aug 2025 | [View Certificate](#)

LANGUAGES

Arabic: Native

English: Professional Working Proficiency

REFERENCES & RECOMMENDATION

Recommendation Letter: Dr. Nouf Rahimi - Assistant Professor, University of Jeddah | [View Letter](#)
